

Wagner Lumber Co. has opened the Wagner Western Wood yard off exit 30 of Interstate 86 on CR 20 in the town of Friendship, Allegany County. The new concentration yard offers a centrally located business venue for local loggers and landowners to market their hardwood logs.

The log yard is in the heart of an area rich in high quality standing timber, of which Wagner is also in the market to purchase. The Wagner Companies purchase tens of millions of board feet of standing timber every year, working with high quality local harvesters to cut, skid and haul the logs to our facilities.

Directions to Belmont:

Our western New York log yard is off Exit 30 of Interstate 86. Exit 30 is 23 miles east of Olean. At the exit, go south on Route 19 0.2 miles to the blinking light (at CR 20). Follow CR 20 (toward Friendship) 1.1 miles and the yard is on the right.
